MPBIE	, cr	Alice has a mathematics test for which she is underprepared. She has to do at least one question correctly to pass the test. He decides to do a question which needs her to find the smallest prime number which is larger than a given integer N. Your task is to find and return an integer value representing the smallest prime number larger than N. Input Format:	
		Input Format:	
. 0	(C)	input1: An integer value N	
£1030		Output Format: Return an integer value representing the smallest prime number larger than N.	
		Return an integer value representing the smallest prime number larger than N.
